

Citation Integrity Audit

Student: Rachna Gupta **Roll:** RSI2026510

Topic: Benchmarking AutoML and Agentic Pipelines Against Expert-Tuned Models on Small Datasets

The assignment requires independent verification of scholarly references. The references below were checked against publisher, proceedings, DOI, or recognized scholarly landing pages. AI-generated references were not accepted solely because an AI system produced them.

#	Reference	Verification source	Status
1	Feurer et al. 2015 — auto-sklearn	NeurIPS	Verified
2	Hutter et al. 2011 — SMBO	Springer DOI	Verified
3	Thornton et al. 2013 — Auto-WEKA	Springer DOI	Verified
4	Bergstra & Bengio 2012 — Random Search	JMLR	Verified
5	Snoek et al. 2012 — Bayesian Optimization	NeurIPS	Verified
6	Olson & Moore 2016 — TPOT	PMLR	Verified
7	Malkomes et al. 2016 — Model Selection	PMLR	Verified
8	Li et al. 2018 — Hyperband	JMLR	Verified
9	Falkner et al. 2018 — BOHB	PMLR	Verified
10	Erickson et al. 2020 — AutoGluon	arXiv	Verified
11	Wang et al. 2021 — FLAML	arXiv	Verified
12	Gijsbers et al. 2024 — AMLB	JMLR	Verified
13	Hollmann et al. 2023 — TabPFN	OpenReview	Verified
14	Trirat et al. 2025 — AutoML-Agent	PMLR	Verified
15	Knauer & Rodner 2024 — Squeezing Lemons	arXiv	Verified
16	Knauer et al. 2024 — PMLBmini	arXiv	Verified
17	Campero Jurado et al. 2025 — shorter AMLB	arXiv	Verified
18	Small-data materials-design AutoML benchmark	Scientific Reports DOI	Verified
19	Brändle et al. 2021 — AutoML text classification	arXiv	Verified
20	Hutter, Kotthoff & Vanschoren 2019 — AutoML book	Springer DOI	Verified

Verification procedure: confirm title, authors, year, venue, existence, and that the link corresponds to the same work. For repository use, link to scholarly/publisher pages rather than redistributing copyrighted PDFs.
